

Cristhian Heredia

Senior Product Designer - UX Strategy
Discovery to Delivery · Complex B2B Products

Product designer with 8+ years shaping digital products across fintech, SaaS, and energy tech. I specialize in translating complex B2B workflows into intuitive experiences, from discovery and user research through delivery.

Former Head of UX/UI at Kushki (20+ person team), with hands-on senior design work at enterprise platforms serving Fortune 500 clients. Bilingual (Spanish/English), based in Ecuador.

EXPERIENCE

Senior Product Designer

Koombea - Remote

2024-08
Present

- Led the end-to-end redesign (v2) of a B2B enterprise SaaS platform for energy decarbonization, serving ~400 corporate clients and 1,000+ users.
- Designed AI-powered user flows for carbon tracking and reporting, translating complex energy data into intuitive workflows for non-technical enterprise users.
- Conducted UX analysis of a wellness mobile app, delivering actionable recommendations for improving user engagement and retention.
- Collaborated with a cross-functional team (Designer + PM) on the client side, driving product decisions from discovery through detailed design specs.
- Established design standards and component architecture for the platform's design system, ensuring scalability across multiple product modules.
- Aligned product strategy with business stakeholders, balancing user needs with decarbonization compliance requirements.

Principal Product Designer

Finicast - Remote

2022-12
2024-03

- Led core product redesign of a financial modeling SaaS platform used by 16 enterprise clients for budgeting, forecasting, and financial analysis.
- Redesigned the formula system (portfolio module), reducing client onboarding and activation time from 6 weeks to 5 weeks — a 17% improvement in time-to-value.
- Rebuilt the data import system, simplifying a complex multi-step flow that was the primary source of user friction during onboarding.
- Redesigned the full platform interface, improving information architecture and interaction patterns across dashboards, data tables, and modeling views.
- Led discovery processes including user research and usability testing to inform design decisions for technically complex financial workflows.

Head of UX/UI > UX/UI Manager

Kushki Latam - Remote

2019-08
2022-10

- Led and managed a UX/UI design team of up to 24 designers across multiple product lines at one of LATAM's leading payment infrastructure companies.
- Designed and launched SmartLinks, a payment links product enabling businesses to collect payments without technical integration — expanding Kushki's addressable market to non-technical merchants.
- Led UX for the merchant backoffice platform, designing transaction monitoring, reporting, and payment management interfaces for B2B clients.
- Designed B2C payment experiences in partnership with government entities, extending Kushki's reach into public-sector digital payments.
- Established the UX/UI practice: defined design vision, processes, standards, and design system strategy across the organization.
- Partnered with leadership to align design strategy with business goals, and supported team growth through mentorship and structured feedback.

Creative director / UI and Web Designer

Sting Marketing, US - Remote

2016-05
2019-01

- Led creative direction for digital products, websites, and branding projects.
- Designed user interfaces focused on usability, aesthetics, and conversion.
- Collaborated with clients to translate business needs into digital solutions.
- Oversaw visual consistency across web and marketing assets.
- Worked hands-on in UI design, branding, and front-end implementation.

Web & Graphic Designer

BE&CO Digital Agency, EC

2015-06
2016-02

- Designed websites, landing pages, and graphic assets for digital campaigns.
- Created visual identities and marketing materials aligned with brand guidelines.
- Collaborated with developers to ensure accurate implementation of designs.
- Supported content and marketing teams with visual assets.
- Contributed to multiple projects under tight deadlines.
